NOTICE: Seva First Innovation Challenge - Eastern Region (SEWA SANKALP ABHIYAN - JUNIOR CATEGORY)

Dear Students,

It is a matter of great pride and enthusiasm to invite our young students and the young minds of our community to participate in the Seva First Innovation Challenge under the National Innovation Challenge (Sewa Sankalp Abhiyan). Marking twenty-five years of dedicated public service, this nationwide initiative calls upon India's younger generation not just to look back, but to actively design and build what comes next.

Under the Junior Category (specially tailored for school, ITI, and undergraduate students), participants are encouraged to observe real problems in their local surroundings, think critically, and present ingenious, practical solutions.

Key Highlights for Participants:

- **Completely Free Participation:** To ensure that every deserving young mind gets an equal opportunity, there are absolutely no participation fees, and travel/accommodation for shortlisted finalists are fully supported.
- **Multilingual Submissions:** Applications can be submitted easily in all scheduled Indian languages.
- **Mentorship & Recognition:** Selected participants will receive certificates, expert mentorship, laboratory access, and exciting grants to turn their prototypes into reality.

Let us guide our children to step forward, observe their communities, and contribute meaningfully toward building a self-reliant Viksit Bharat. I urge all eligible students to seize this wonderful opportunity. Scan the official program QR code or visit **sficeast.wb.gov.in** to register today under junior category. They are also advised to follow the registration information & guidelines pdf for a clear understanding & active participation.

Dated: 19th October, 2026

By order,

Principal
